

[illegible]

Figure 1: A legend for map symbols. It lists five categories: 'All Roads' (solid line), 'Railroad' (line with cross-ticks), 'Pipe/Power Line' (line with small squares), 'Physical Feature' (wavy line), and 'Nonvisible Boundary' (dotted line). To the right, three examples are shown: 'Stream/Shoreline' (blue wavy line), 'Intermittent Stream' (blue dashed wavy line), and 'River' (blue wavy line with a brown 'River' label).

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

¹ A '*' following a place name indicates that the place is also a false MCD; the false MCD name is not shown.

² In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a '.99' suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
